

Food Hotel Asia 2021

Singapore
March 2 –5, 2021

Singapore is one of the wealthiest markets in Southeast Asia, located in the middle of key trade flows from Asia, Australia, Europe, the Middle East and the United States; it is one of the world's most open economies and dependent on international trade. In 2018, the United States was Singapore's third largest supplier of consumer-oriented food and beverage products, with total sales reaching \$608 million USD for the year. Singapore's highly import dependent, multi-billion-dollar food industry is driven by robust consumer spending, high disposable incomes, and intense urbanization. The country's trade and regulatory policies are focused on ensuring consistent foreign supply of high-quality food and agricultural products.
