

Fine Food Australia 2024

Melbourne, Australia September 2-5, 2024

Australia is the world's 13th largest economy and ranks 19 among U.S. agricultural export markets. In 2022, U.S. agricultural exports to Australia totaled \$1.64 billion. Supermarket and grocery expenditures continue to account for the bulk of food retailing purchases with a share of 63.5 percent. Market prospects for U.S. food products are best in areas drawing on innovative products, economies of scale, and the U.S. position as a counter-seasonal supplier of fresh product.

Fine Food is an international exhibition for the food and drinks industry and is the largest food industry event in Australia. Due to Australia's large geographic size, exhibiting at Fine Food is the most cost-effective way for U.S. companies to meet potential partners and customers interested in consumer-oriented food products.
