

India Southern Ingredients Inbound Trade Mission to Georgia and Texas

Atlanta, Georgia and
Austin, Texas
May 24-26, 2027

India continues to rank among the world's fastest growing major economies and represents a significant and expanding market for imported food ingredients and consumer oriented agricultural products. A population of more than 1.47 billion, a median age of approximately 28 years, accelerating urbanization, higher household incomes, and evolving consumption patterns are collectively driving demand for packaged, convenient, premium, and health focused foods. These dynamics create opportunities for U.S. suppliers of food processing ingredients, tree nuts, fresh fruits, among other products. In 2025, U.S. tree nuts exports reached \$10.82 billion, India was ranked the top #2 market with exports valued at \$1.45 billion.

Registering for this event will allow companies to meet one-on-one with qualified buyers from India in either Georgia or Texas and explore the Indian market at a very low cost.
